

# Davud Čičak

## Front-End Developer

### Profile

I'm a front-end developer specializing in front-end development with a strong command of React and Next.js. I also contribute to backend development using Laravel when projects call for it. My work spans a wide range of projects, both as part of collaborative teams and in independent roles, allowing me to adapt quickly and deliver custom solutions.

### Work Experience

2022 - Present

BaxDev | Remote, BIH - Zenica

#### Front-end Developer

At BaxDev, I worked across various projects using modern web technologies, especially React and Next.js:

- Built a multi-country web application for the German haircare brand Wella RED, featuring Single Sign-On (SSO), GDPR compliance, custom registration flows, and localized user experiences – React/Next.js
- Developed a property presentation site for German company – Mark München, including an interactive floor visualization and responsive design – React/Next.js
- Built a real-time training calendar for the MFW Vien team in Austria, enabling member sign-ups and trainer scheduling – React (v19.0)
- Developed a presentation website for "Mozak," a product by the German "AC&C Company", featuring multilingual support and headless WordPress integration – React/Next.js
- Built a multilingual image-sharing platform with advanced search and an admin dashboard – React/Next.js
- Created a multilingual QR menu platform for restaurants, featuring a customizable interface and full-featured CMS – React (v17.0.2)
- Developed and deployed a static site with Next.js
- Contributed to a food redistribution platform with advanced filters and role-based features – Next.js
- Assisted in the development of a React Native application
- Built several responsive single-pagers, presentation websites, and landing pages using React, Next.js, TypeScript, server-side components, and TailwindCSS
- Delivered multiple custom WordPress websites using Elementor for clients needing fast, flexible presentation sites

2021 - 2022

Lupon Media | Remote, UAE - Dubai

#### Advertising Operations

Managed and optimized existing ad platforms, leading trafficking, delivery, and reporting for digital ad campaigns. Communicated with clients and agents to ensure smooth execution, while managing campaign details within company software and providing regular updates.
